

# i.e.d installations limited

## Statement

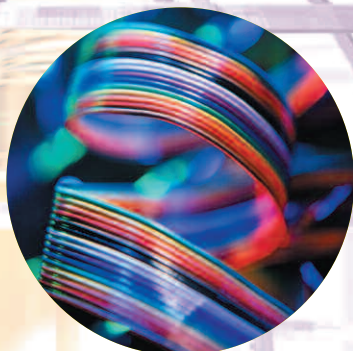

IED Installations were established in 1994, and have sustained a continued growth year on year, this being due to our commitment to our client base and staff.

Our focus is to provide a service that meets our clients and future clients satisfaction with regards to professional approach, quality, delivery, health and safety and value for money.

IED has grown into a recognised major building service provider within the North West, this being due to our commitment to provide a flexible approach to the services we provide to our customers and our forward planning.

Our approach to all projects is to work as a team with the client and his professional team to deliver a quality project and within budget. This is achieved by our openness and technical abilities within our organisation to look at each individual project with regards to delivery, valued engineering, build ability and programming.

We employ over 50 operatives with many years of experience within the construction industry and have a very stringent training programme for all our operatives / apprentices with regard to their technical and health and safety training. The range of services we can provide are Mechanical, Electrical, Voice and Data, Test and Inspection, Planned Preventative Maintenance and Project Management.

Our client base ranges from Health, Education, Commercial, Industrial and the Private Sector.

## Sectors of Work

Private, Commercial, Industrial, Health, Education, Chemical, Pharmaceutical, Paper, Leisure, Water and Local and Government Authorities.

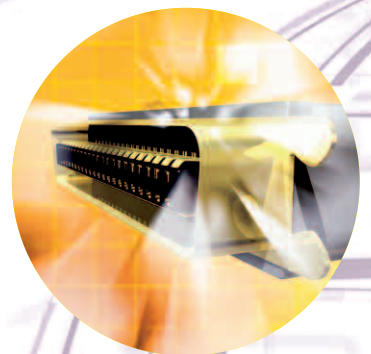

## Company Memberships

The company is approved by the following organisations, which verify the condition and standard of work carried out in the sectors and the industry we work in.

- National Inspection Council for Electrical Installation Contracting
- The Electrical Contractors Association
- Telecommunications Industry Association
- Fibre Optic Industry Association
- Constructionline
- North West Consortium
- Joint Industries Board
- Contractors Health & Safety Scheme
