

CARBON REDUCTION PLAN

CARBON REDUCTION PLAN

Supplier Name: I.E.D Installations Ltd

Publication Date: 8th May 2025

COMMITMENTS TO ACHIEVING NET ZERO

I.E.D Installations Ltd is committed on achieving Net Zero emissions by 2030 AD.

BASELINE EMISSIONS FOOTPRINT

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Our data collection is converted into emissions using the official Government conversion factors 2023.

CARBON REDUCTION PLAN

Emissions reduction targets

To continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets. We project that carbon emissions will decrease over the next five years to 500 tCO₂e by 2027. This is a reduction of 49% and we expect to record data in 2025 that will reflect business as usual.

Progress against these targets can be seen in the graph below:

- **Carbon Neutral in Direct Operations Scope 1, 2 & 3 by 2030**
- **Reduction in absolute Scope 1, 2 & 3 GHG Emissions by 49% by 2026**
- **Reduction in absolute Scope 1, 2 & 3 GHG Emissions by 75% by 2028**

Emission Targets

CARBON REDUCTION PLAN

Carbon Reduction Projects

The following environmental management measures and projects have been implemented. The ongoing and future measures will be in effect within this budget year.

- Hybrid Working
- Virtual Meetings
- Reduced Office Space
- Digital over Physical
- Recyclable Materials
- Supply chain monitoring
- Use of environmentally friendly products
- Switch to renewables for energy

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard^[1] and uses the appropriate [Government emission conversion factors for greenhouse gas company reporting](#)^[2].

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard^[3].

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of I.E.D Installations Ltd: *Peter Stewart*
