

Health and Safety Policy and Procedures

1.1 I.E.D Installations Ltd Environmental Policy Statement

I.E.D Installations Ltd is committed to the conservation and improvement of the environment and to minimising the environmental impact of the risks arising from its working activities. In order to achieve this, the Company has set out the following key objectives:

- To promote sound environmental management policies and practices throughout the Company.
- As a minimum, to comply with the requirements of relevant legislation.
- To make efficient and environmentally responsible use of energy and water.
- To promote environmentally responsible procurement of goods and services where possible.
- To minimise waste production as far as is practicable, and to re-use or recycle waste where appropriate.
- To reduce and, where practicable, prevent pollution altogether.
- To minimise the impact of transport on the environment arising from Company's own vehicles.
- To communicate the Company's environmental performance internally and to the external clients when required.
- To raise staff awareness of the Company's environmental impact, activities and performance and to promote individual good practice.
- To identify the Company's shared responsibilities with its clients to allow environmental concerns to be identified and addressed at an early stage.
- To assess the environmental impact of any SPL working sites and take the necessary action to reduce any adverse impacts to a practicable minimum.

The main responsibility for the implementation of this policy lies with the Managing Director, who will communicate its importance to all employees, sub-contractors and associated third parties. This policy and its effectiveness will be monitored in line with the Company's HESQ Management System and reviewed annually or when circumstances or legislation dictates.
