LIVERPOOL HEART & CHEST HOSPITAL

- Project Value: £34,500.00
- Project Type: Internal Refurbishment
- Project Aim: 3 New Consultant's Offices
- Project Completion: Sept 2012

LIVERPOOL HEART & CHEST HOSPITAL

IED were appointed as the main Contractor for the refurbishment works upon conclusion of a formal tender process. The works were undertaken in the administrative wing of a 'live' hospital in accordance with the strict safety protocols demanded by such an environment.

The works consisted:

- Electrical & mechanical service isolations.
- Internal demolition & strip out of existing finishes.
- Complete overhaul of existing sliding sash windows
- Construction of new internal partitions & dry lining.
- Upgrade existing heating system
- New lighting, power & data to suit new configuration
- New internal doors, frames, architraves & skirtings.
- New internal doors, frames, architraves & skirtings.
- New suspended modular ceilings.
- New floor finishes throughout..
- Decoration

IED also installed new office fixtures & fittings, shelving, storage and new blinds.
