CLATTERBRIDGE HOSPITAL

- Project Value: £100,000
- Project Type: Conversion / Upgrade
- Project Aim: Link bridge Installation
- Project Completion: November 2020

CLATTERBRIDGE HOSPITAL

We had the electrical & life Safety Package to wire and install a "Link Bridge" from the new Clatterbridge Cancer Hospital to the Existing Royal Liverpool Hospital for the Use of transporting Beds through the Hospital.

Our IED Principles were a new Electrical Sub Main fed from the Clatterbridge Main Plant Room to supply a Distribution Board Mounted in the Clatterbridge Link Bridge Main Entrance to supply the Link Bridge Lighting, Power and Heating System all surface mounted, we also installed a new Access Control system to couple to the CCTV Existing System.

- ❏ CCTV
- ❏ Electrical Distribution
- ❏ Lighting
- ❏ Heating - Corridor & Over Door
- ❏ Access Control
