THE CAPTAIN SIR TOM MOORE BUILDING BREAST SCREENING UNIT

THE CAPTAIN SIR TOM MOORE BUILDING BREAST SCREENING UNIT

I.E.D. successfully completed this project at Halton Hospital - The Captain Sir Tom Moor Building Breast Screening Unit – Project Delivered on time in accordance with the Contract Programme.

The Programme was a 10 Week Turn round to Modify and expand the existing system to include lighting & Power, and all Life Safety System whilst working within the Hospital, the ward amendments were phased to hand back the use of each area due to the nation demand and to retain all procedures and Breast Screening appointments, also to provide cutting edge X-Ray Facilities, whilst creating patient care units designed for the comfort during their appointments.

The Tom Moore was named after the late Sir Tom Moore, was a prestige NHS change to the Halton Hospital, that will impact on all North West Breast Screening for all Women.
