- Project Completion: September 2022

LIVERPOOL JOHN MOORES UNIVERSITY

John Moores have updated their high end technology for Student Tuition over the summer break to introduce the latest AV (Audio & Visual Facilities) for the Student Body for all elements of Humanities & Social Sciences, within the John Foster Building.

The John Foster Building, a former nunnery, the School of Humanities and Social Science has many outstanding facilities, including well-equipped IT Suites, a light-filled Student Common Room and dedicated postgraduate study areas.

Aquinas Building, Liverpool John Moores University is one of the most highly rated places of Liverpool across the 'Education' list of Nicelocal, this organization can be found at the official address: United Kingdom, L1 9DE, Merseyside, Liverpool, Maryland St.

Our Installation programme was a 8 Week turn round, all work were carried throughout the term break with the project delivered on time.

IED Disciplines:

- ❑ Electrical Lighting LED Upgrade for Scene Plate "Smart Lighting"
- ❑ New Cat 6 Data System
- ❑ New Flooring
- ❑ New Internal Decorations throughout
- ❑ New power & Data to the Lecterns

We coordinated directly with the University Design Team for:-

- ❑ Electrical Break in and Testing to integrate the existing lighting control system to a new LED Smart Switching systems
- ❑ Data Assessments of the existing system
