EDWARDS BUILDING - RLUH HOSPITAL

- Project Value: £360,000
- Project Type: Building Upgrade
- Project Aim: Renovation of Building
- Project Completion: November 2022

EDWARDS BUILDING - RLUH HOSPITAL

The NHS are merging trusts following the New Royal Liverpool University Hospital with the RLUH and Aintree Hospital Staff. The NHS have chosen the Edwards Building Location to house up to 250 NHS Staff to localise them to the new building adjacent to the original site.

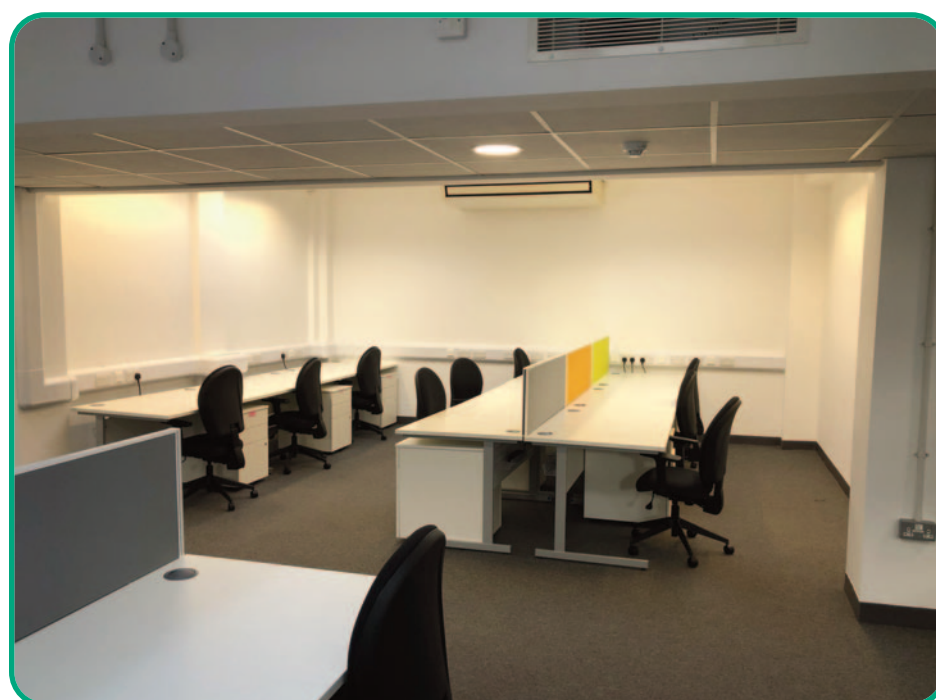

The NHS approached IED to support them in renovating the Edwards Building site, working away from the internal design requests we have stripped out the original flooring, then modernised the decorations, interiors, and flooring whilst carrying the original building renovation, we also expanded the original electrical and data systems to maximise the office areas to equate for more desk spaces for the NHS Management in accordance with the new desk layouts.

Our Installation programme was a 9 Week turn round with the project delivered on time.

The NHS entrusted IED to coordinate for the renovation of the building see our disciplines below:-
