Service**

UNIVERSITY OF LIVERPOOL WALKER BUILDING

- Project Value: £42,000
- Project Type: Electrical Upgrade
- Project Aim: Fire Alarm & Power
- Project Completion: October 2023

UNIVERSITY OF LIVERPOOL WALKER BUILDING

Associated with nine Nobel Prize winners, Liverpool is a member of the prestigious Russell Group of the UK's leading research universities. The University have a global reach and influence that reflects their academic heritage as one of the country's largest civic institutions.

Working alongside the Building Consultant University of Liverpool, M&E Designers, and D & G Builders, IED were responsible for the Electrical Installation, and commissioning of our Electrical & Fire systems.

The electrical Installation was to isolate, strip out and re-wire the entire Electrical, Fire, Small Power systems to rewire as new.

Our Installation programme was a 6-month project due to winter inclement weather & animal movements issues the project experienced severe delays, we stayed within our project boundaries for our completion delivered on time October 2023.

Our systems Consist of:-

- ❖ New LED Lighting
- ❖ New electrical rewire of all small power and lighting/lighting control.
- ❖ New Fire Alarm
